3.3.7 Testing the getDeadline() function	11

1 Introduction and Important Points

This is the Compliance Report document for Video Rental System Software (SRS). Here, we list down test cases that were mentioned in the test suite along with the obtained PASS/FAIL results that were obtained after testing the software. The exact test case and the golden outputs can be checked under the same corresponding sections in the test suite document.

Note that for a positive test case, the expected result should be **PASSED**, while for a negative test case, the expected result should be **FAILED**.

2 Compliance Report for the Frontend GUI Interface

2.1 Home Page

Working Properly

- 1. View Movie Details by clicking View Movie Button without logging in PASSED
- 2. Clicked Rent Movie after viewing Movie without logging in FAILED

2.2 Login Method

Login Webpage working properly

2.2.1. User:

1. No User account details entered and login is clicked:

FAILED

2. Wrong username/password entered

FAILED

- 3. Wrong user type entered with correct username and password
- 4. Correct user type, username and password entered **PASSED** (leads to the user page)

2.2.2. Staff:

1. No User account details entered and login is clicked:

FAILED

2. Wrong username/password entered

- 3. Wrong user type entered with correct username and password
- 4. Correct user type, username and password entered **PASSED** (leads to the staff page)

2.2.3. Manager:

1. No User account details entered and login is clicked:

FAILED

2. Wrong username/password entered

FAILED

3. Wrong user type entered with correct username and password

FAILED

4. Correct user type, username and password entered

PASSED (leads to the manager page)

2.2.4. Reset Password

1. Entering invalid email

FAILED

2. Entering valid email

PASSED

2.3 Sign Up Interface

Sign Up Page Working Correctly

2.3.1. User:

1. Skipped filling a form column (username, password, repeat password, email)

FAILED

2. Filled an already taken username

FAILED

3. Filled an already taken email id

FAILED

4. Filled email in incorrect format

FAILED

5. Entry in repeat password does not match password entry

FAILED

6. Filled in unique username and valid email, and with matching password and repeat password entries

PASSED

2.3.2. Staff:

1. Skipped filling a form column (username, password, repeat password, email, system password)

FAILED

2. Filled an already taken username

FAILED

3. Filled an already taken email id

FAILED

4. Filled email in incorrect format

FAILED

5. Entry in repeat password does not match password entry

FAILED

6. Filled wrong system password

FAILED

 Filled in unique username, system password and valid email, and with matching password and repeat password entries
 PASSED

2.4 Add an Movie

1. Working of all entry text fields

PASSED

2. Correct Submission with filling of all mandatory entries

PASSED

3. Submission without filling mandatory entries

FAILED

4. Image URL not provided

FAILED

5. Description not provided

FAILED

6. Genre not provided

FAILED

7. Rating not provided

FAILED

8. Rating is not a number between 0 to 10

FAILED

9. Price entered is not a number

FAILED

10. Price of the item entered is negative

FAILED

11. Quantity entered is not a number

FAILED

12. Initial Quantity entered is negative

FAILED

2.5 Edit Movie

1. Working of all buttons

PASSED

2. Correct Modifications with filling of all mandatory entries

PASSED

3. Editing Entries for different fields

(Refer Previous Section)

2.6 Search a Movie

1. Search movie by Movie ID

PASSED

2. Search movie by genre

PASSED

3. Search movie by title

PASSED

4. Search for incorrect movie id/genre/title

FAILED

2.7 Purchase Movie

1. Display of Movie Title

PASSED

2. Display of Movie Cover Image, Genre and Description

PASSED

3. Display of Movie Price, Rating and Quantity in appropriate format

PASSED

4. Purchasing Movie with quantity in stock and sufficient funds in profile

PASSED

5. Purchasing Movie not in stock

FAILED

6. Purchasing Movie with quantity in stock and insufficient funds in profile

FAILED

2.8 Admin Dashboard

1. Working of all buttons

PASSED

2. Add Movie

PASSED (refer previous sections)

3. Add Stock with correct movieID and quantity

PASSED

4. Add Stock with correct movieID and entering non-integer entry

FAILED

5. Add Stock with correct movieID and entering negative entry

FAILED

6. View list of all Customers

PASSED

7. View list of all Staff

PASSED

8. View and verify Orders of Selected User

PASSED

9. View and verify Deadlines of Selected User

PASSED

10. Delete selected User

PASSED

11. Perform Audit and Verify PDF generation

PASSED

2.9 View Profile

1. Edit Profile button

PASSED

2. Change user name with new unique username

PASSED

3. Change user name with already taken username

FAILED

4. Add "About me" to profile and verify display of description on profile

PASSED

5. Add positive amount of funds to profile

PASSED

6. Add non-numeric/negative/zero amount of funds to profile

FAILED

7. Try to login with old username after changing username

FAILED

2.10 Staff Dashboard

1. View list of all Customers

PASSED

2. Add Movie

PASSED (refer previous sections)

3. Add Stock with correct movieID and quantity

PASSED

4. Add Stock with correct movieID and entering non-integer entry

FAILED

5. Add Stock with correct movieID and entering negative entry

FAILED

6. View list of all Deadlines/Orders of Selected Customer

PASSED

7. Delete Selected Customer

PASSED

2.11 Customer Dashboard

1. Display and verify list of Recommended Movies

PASSED

2. Working of all buttons

PASSED

3. View list of all orders

PASSED

4. Generate and verify receipt for selected order

PASSED

5. Return and verify status of a given movie order

PASSED

6. View and verify list of upcoming deadlines

PASSED

7. Search and Rent Movies

(Refer Previous Sections)

3 Compliance Report for Backend Classes and Database Management

3.1 Testing the User class

3.1.1 Testing the getName() function

1. Retrieve and verify the name of the user

PASSED

3.1.2 Testing the getCategory() function

1. Retrieve the category of the user from among Customer, Staff and Manager

PASSED

3.1.3 Testing the setName() function

1. Set the name of the user to a valid string

PASSED

2. Set the name of the user to an invalid string

FAILED
